Not investment advice. A withheld, low-confidence or experimental output says so rather than offering a number. The Monte Carlo is a supplementary sensitivity, never a second fair value.

Bajaj Finance Limited (BAJFINANCE.NS): institutional brief

Executive Summary

Fair value INR 364.92 per share against a price of INR 939.10 (-61.1%). Primary method: RESIDUAL_INCOME_PB - Multi-Stage Residual Income (100%). Confidence HIGH: Confidence of the primary method as stated by the model (HIGH).

- Latest reported year FY26: revenue INR 72,783 crore, EBITDA INR n/a crore, profit to owners INR 19,017 crore.
- Relative: P/E 30.2x against a peer median of 12.7x (5 peers, valid).

Business and Investment Context

Bajaj Finance Limited is classified Non-Banking Financial Company (NBFC) (Non-Banking Financial Company (NBFC)), routed to RESIDUAL_INCOME_PB - Multi-Stage Residual Income (100%) on the economics of the business: Wholesale and retail lending entity funded via market borrowings, securitization, and bank lines modeled on AUM growth, spreads, and GNPA/NNPA provisioning.

Historical Performance

INR crore	FY24	FY25	FY26
Revenue	48,320	61,205	72,783
EBITDA	n/a	n/a	n/a
EBITDA margin	n/a	n/a	n/a
Profit to owners	14,451	16,638	19,017
Diluted EPS (INR)	n/a	n/a	n/a
Operating cash flow	n/a	n/a	n/a
Capex	n/a	n/a	n/a

Forecast and Economic Drivers

No linked three-statement forecast is published: Lender (NBFC): the linked statements are published as lenderModel (10/11 identity checks pass); the generic operating-company build is not applied to a lender.. Any DCF forecast, sensitivity and cross-checks are published in the valuation section, separately.

Driver	Forecast value	Basis	Why
Dividend payout	0.13 ratio of profit	DERIVED / MEDIUM	History-derived value; no override applied.
Effective tax rate	25.13 % of PBT	DERIVED / MEDIUM	History-derived value; no override applied.

Valuation

Primary method RESIDUAL_INCOME_PB - Multi-Stage Residual Income (100%) gives INR 364.92 per share. Other methods are cross-checks and are never averaged into it.

Method	Low	Base	High	Role
Multi-Stage Residual Income (13.83% Ke, 5.0% g)	318	365	424	primary
Fundamental Justified P/B (20.6% stable ROE -> 1.76x P/B)	290	323	364	cross-check
Dividend Discount Model (13% forecast payout, 76% sustainable terminal payout)	297	343	401	cross-check

Peer Comparison

Whole-company comparable set: Listed Indian non-bank lenders: borrowed-funds balance sheets valued on book value and return on equity; a bank is not in the set because deposits and regulation differ.

Metric	Subject	Peer median	Interquartile range	Peers
P/E	30.2x	12.7x	9.1x to 19.3x	5
P/B	4.7x	1.5x	1.1x to 1.9x	4 (1 outlier excl.)

Metric	Subject	Peer median	Interquartile range	Peers
ROE	15.7%	11.6%	10.1% to 13.4%	4 (1 outlier excl.)

Not applicable here: EV/EBITDA, EV/EBIT, EV/Sales, FCF yield, FCFE yield, ROIC, EBITDA margin, FCF margin, CFO / EBITDA, Cash conversion (FCF / PAT), EBITDA growth (latest FY), FCF growth (latest FY), FCF CAGR (3y), Net debt / EBITDA, Debt / equity, Interest coverage.

The median is the headline statistic; quartiles and the sample size are shown because a median of three is not a median of ten.

Reverse Valuation and Scenarios

Risks and Invalidators

- Historical EPS (share basis): withheld. the statement share count (61.8 Cr) is 10.06x away from the valuation's 622 Cr, so FY24, FY25, FY26 EPS is withheld rather than shown on a basis the per-share fair value does not ...
- DCF cross-check: withheld. Not eligible by methodology: valuation methodology routes this archetype (NBFC) to RESIDUAL_INCOME_PB and prohibits the consolidated FCFF DCF . ...
- Segment analysis: withheld. no Ind AS 108 segment disclosure was read for this issuer and the provider published no split
- Line-by-line statutory statements: withheld. no audited statutory XBRL filing was served for this issuer; the statements are not laid out line by line

Key Assumptions and Source Notes

Discount rate: WACC 13.83% (risk-free 6.95%, beta 1.25, equity risk premium 5.50%); terminal growth 5.00%. Used by the primary method.

No user override applied: every driver is the history-derived recommendation or a disclosed model policy.

Statements: Consolidated annual figures, INR crore; fiscal year ending March. Price: NSE official close of 2026-10-30. Peer figures come from one provider extractor applied identically to the subject and every peer; free cash flow is operating cash flow less capital expenditure. This brief restates the model's published figures. It is not investment advice; a withheld or low-confidence valuation says so rather than offering a number.

A. Macro, industry and business context

All amounts INR crore unless stated (1 crore = 10 million); fiscal year ends 31 March; A = reported, E = FMB forecast; dates are ISO (YYYY-MM-DD).

Business and classification

Company	Bajaj Finance Limited (BAJFINANCE.NS); ISIN INE296A01032
Sector / industry	Non-Banking Financial Company (NBFC) / Generic Operating Business
Economic archetype	Non-Banking Financial Company (NBFC) (NBFC)
What that means	Wholesale and retail lending entity funded via market borrowings, securitization, and bank lines modeled on AUM growth, spreads, and GNPA/NNPA provisioning.
Routed valuation method	RESIDUAL_INCOME_PB; allowed: RESIDUAL_INCOME_PB, JUSTIFIED_PB_ROE, DIVIDEND_DISCOUNT_MODEL
Regulated financial	yes

Industry model the forecast is built on

Template	Generic Operating Business
How revenue is built	Historical trend fallback
Why	Standard 3-statement operating build with historical median normalization and reinvestment ROIC anchor.
Key drivers	revenue growth, ebitda margin, capex percent of revenue, working capital ratio
Operating leverage	no
Commodity exposures	none modelled
Benchmark peers	BAJFINANCE.NS, CHOLAFIN.NS, SHRIRAMFIN.NS, MUTHOOTFIN.NS, M&MFIN.NS
Life-cycle stage	HIGH_GROWTH (REGULATED_BALANCE_SHEET). Revenue CAGR 22.7% over 3 reported periods, latest EBIT margin unreported. Stage bands: >=20% high growth, >=10% mature growth, >=0 mature stable, <0 decline.
Cyclicality	UNAVAILABLE: Cyclicality needs at least 5 usable periods to distinguish a cycle from a trend; 0 are available. Refusing to classify a company as cyclical or stable on too little history.

Official macro backdrop (RBI)

Status CURRENT. Read from RBI's own pages on 2026-10-19; each page's sha256 is in the source ledger. Projections are the RBI's, quoted, not ASTRA's. Record age 13 days.

Industry backdrop

The industry content of this report is the classification, the template the forecast is built on and the measured peer statistics in the valuation pages. No sector forecast or third-party industry outlook is sourced, so none is shown.

Macro inputs the model carries

FMB does not publish its own macro or industry forecast. The macro content of the model itself is the discount-rate environment below; growth and margin drivers are history-derived (see the brief), not a view on GDP, inflation or the cycle.

Risk-free rate	6.95% — Reserve Bank of India 10-Yr G-Sec Benchmark Yield (7.10 GS 2034) (as of 2026-08-28; status configured_fallback)
Equity risk premium	4.20% base; country-risk adjustment 1.30%
Beta	raw 1.147, adjusted 1.098 against NIFTY 50 Index (3 Years Weekly); method PROVIDER_QUOTE
Cost-of-capital basis	Model Assumption Override

Management guidance

No verified management guidance is attached to this snapshot. None is inferred. (Personal biographies of executives are deliberately not part of this report.)

B. Annual and quarterly statements

Reported years (A) and FMB's forecast (E) on one axis. A line the source does not carry is n/a, never zero. All amounts INR crore unless stated (1 crore = 10 million); fiscal year ends 31 March; A = reported, E = FMB forecast; dates are ISO (YYYY-MM-DD).

Income statement (lender template, as filed)

INR crore	FY24A	FY25A	FY26A
Interest income	48,307	61,164	72,776
Interest expense	18,725	24,771	28,666
Net interest income (published)	29,582	36,393	44,110
Non-interest income	13	41	7
Operating expenses	12,325	14,926	17,776
Provisions and contingencies	4,631	7,966	9,482
Profit before tax	19,302	22,062	25,800
Tax expense	4,858	5,300	6,484
Net profit	**14,451**	**16,638**	**19,017**
Dividends paid	-1,815	-2,225	-3,477
Diluted EPS (INR)	n/a	n/a	n/a

Balance sheet (lender template, as filed)

INR crore	FY24A	FY25A	FY26A
Advances	3,26,293	4,07,844	4,98,944
Deposits	60,151	71,403	68,533
Borrowings	2,29,617	2,86,742	3,63,774
Total assets	3,75,742	4,66,127	5,59,952
Book equity	**76,695**	**96,693**	**1,13,999**

Cash flow

A lender's cash-flow statement mixes deposit and loan flows with operations, so FMB does not publish one for this archetype and none is shown. The forecast for this archetype is built by a sector engine and valued on residual income; no generic three-statement model is forced onto it.

Quarterly results

UNAVAILABLE: NSE quarterly listing unreachable: RIGHTS_BLOCKED: NSE session-cookie API is paused by the owner pending legal review (nseSessionCookie); set ASTRA_ALLOW_NSE_SESSION_API=1 only after that review. No quarterly figure is estimated.

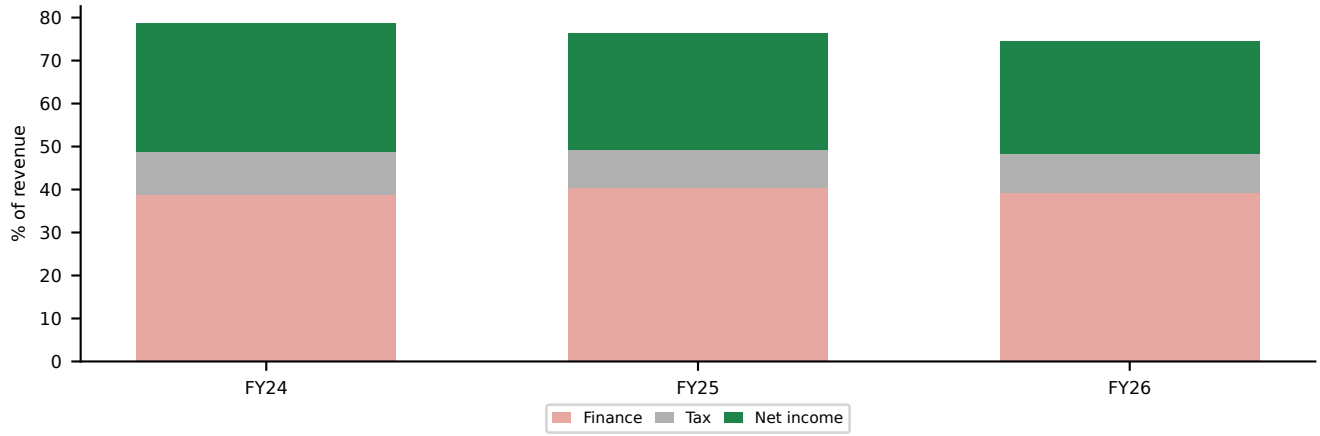

C. Common-size statements

Every line as a percentage of its base (revenue for the income statement, total assets for the balance sheet): the engine's published common-size series.

Income statement, % of revenue

% of revenue	FY24	FY25	FY26
Finance costs	38.8%	40.5%	39.4%
Profit before tax	39.9%	36.0%	35.4%
Net income	29.9%	27.2%	26.1%

Where each rupee of revenue goes (the lines the filing itemises)

The stack can exceed 100% by other income, which is not a revenue line; a lender's template itemises only finance cost, tax and profit.

Balance sheet, % of total assets

% of total assets	FY24	FY25	FY26
Total Equity	20.4%	20.7%	20.4%

Common-size uses reported years only; forecast years are not restated into common-size by the engine.

D. Operating segments

Ind AS 108 segment disclosure as filed (gross of inter-segment eliminations).

Segment split not available for this issuer: no Ind AS 108 segment disclosure was read for this issuer and the provider published no split. Nothing is estimated.

E. Expenses and margins

Cost lines and margins, reported then forecast.

Lender economics: margins are measured against the balance sheet, not revenue. Every row is a simple ratio of two filed lines (derived here, labelled).

% (derived)	FY24A	FY25A	FY26A
Net interest income / total assets (derived)	7.9%	7.8%	7.9%
Cost-to-income (opex / (NII + non-interest income)) (derived)	41.6%	41.0%	40.3%
Provisions / advances (derived credit cost proxy)	1.4%	2.0%	1.9%
Borrowings / total assets (derived; an NBFC funds itself with borrowings, not deposits)	61.1%	61.5%	65.0%
Book equity / total assets (derived)	20.4%	20.7%	20.4%
Return on closing book equity (derived)	18.8%	17.2%	16.7%
Return on closing assets (derived)	3.8%	3.6%	3.4%

F. Property, plant and equipment, capex and depreciation

Not applicable as a driver for a lender: its productive asset is the loan book, shown with funding in annex G. Premises and equipment are not a modelled line for this archetype.

G. Working capital and capital allocation

A lender has no trade working capital; its balance-sheet engine is the loan book and its funding. Filed lines, then the simple ratios derived from them.

INR crore	FY24A	FY25A	FY26A
Advances	3,26,293	4,07,844	4,98,944
Deposits	60,151	71,403	68,533
Borrowings	2,29,617	2,86,742	3,63,774
Book equity	76,695	96,693	1,13,999
Total assets	3,75,742	4,66,127	5,59,952

Capital allocation	FY24A	FY25A	FY26A
Net profit	14,451	16,638	19,017
Dividends paid	1,815	2,225	3,477
Dividend payout (derived)	12.6%	13.4%	18.3%

H. Ratios, DuPont and forensic screens

Reported years. Ratios are the engine's published series; forensic screens flag, they do not prove.

Lender ratios

% (derived from filed lines)	FY24A	FY25A	FY26A
Net interest income / total assets (derived)	7.9%	7.8%	7.9%
Cost-to-income (opex / (NII + non-interest income)) (derived)	41.6%	41.0%	40.3%
Provisions / advances (derived credit cost proxy)	1.4%	2.0%	1.9%
Borrowings / total assets (derived; an NBFC funds itself with borrowings, not deposits)	61.1%	61.5%	65.0%
Book equity / total assets (derived)	20.4%	20.7%	20.4%
Return on closing book equity (derived)	18.8%	17.2%	16.7%
Return on closing assets (derived)	3.8%	3.6%	3.4%

The engine publishes no operating-company ratio series, DuPont or Altman / Piotroski / Beneish screen for a lender: those screens are built for non-financial balance sheets and are not applied. Accounting-quality verdict: UNAVAILABLE.

I. Valuation: scenarios, relative and absolute value, reverse DCF

Bull / base / bear, the method ranges, trading comparables and what the price implies. Ranges, sensitivity grid and stress test follow on the next pages. All amounts INR crore unless stated (1 crore = 10 million); fiscal year ends 31 March; A = reported, E = FMB forecast; dates are ISO (YYYY-MM-DD).

Absolute value: the primary method and its cross-checks

Primary method	RESIDUAL_INCOME_PB - Multi-Stage Residual Income (100%) (status VALID)
Fair value per share	INR 364.92
Price	INR 939.10

Method	Low	Base	High	Weight %	Role
Multi-Stage Residual Income (13.83% Ke, 5.0% g)	318	365	424	100	primary
Fundamental Justified P/B (20.6% stable ROE -> 1.76x P/B)	290	323	364	0	cross-check
Dividend Discount Model (13% forecast payout, 76% sustainable terminal payout)	297	343	401	0	cross-check

Cross-check methods are never averaged into the primary value; each is shown with its own range.

Scenarios: bull / base / bear

FMB published no scenario set for this issuer.

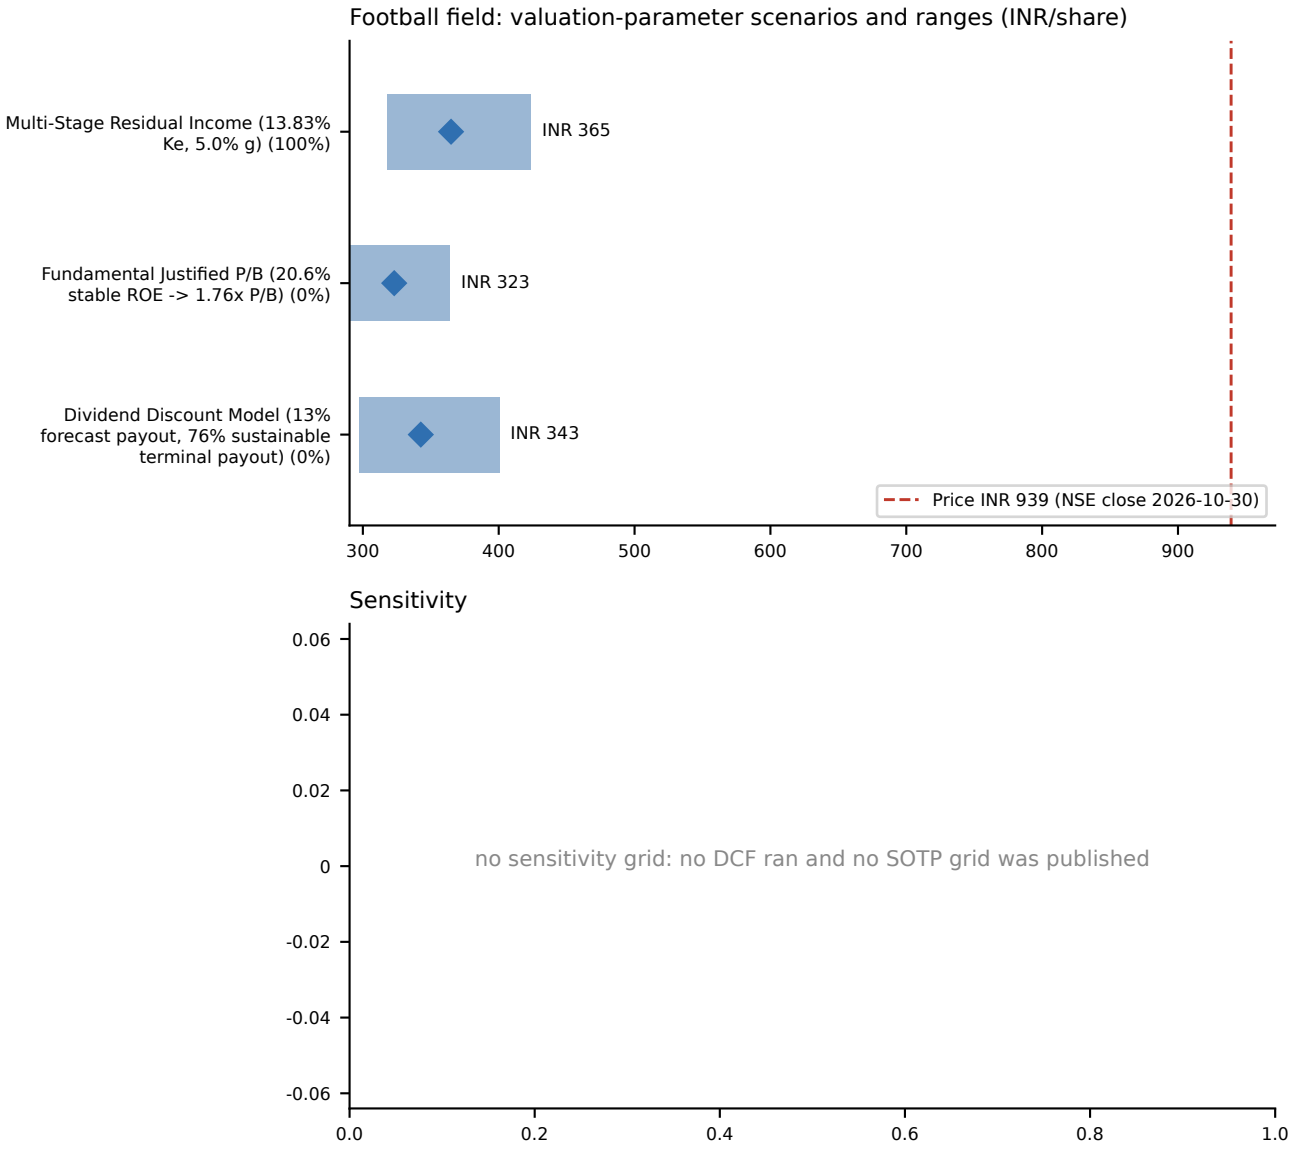

Relative value

Trading comparables: consolidated trading comps are not the method for this archetype (RESIDUAL_INCOME_PB); segment peers are shown inside the SOTP. The peer statistics (median, quartiles, sample size) are in the brief and on the workbook's Peers sheet.

Reverse valuation: what the price implies

Reverse valuation: AVAILABLE. At 939.10 the market pays +157.3% against the model's 364.92. Cost of equity at which the forecast is worth the market price: 8.9792% (published 13.83%); Multiple of the forecast profit path the market price requires: 2.3455x (published 1x); Terminal growth at which the forecast is worth the market price: 11.9927% (published 5%). This describes market EXPECTATIONS, not fair value.

BAJFINANCE.NS · valuation: RESIDUAL_INCOME_PB - Multi-Stage Residual Income (100%)

I. Valuation: ranges, sensitivity grid and stress test. Source: FMB snapshot snap_BAJFINANCE_NS_84b3744f3a0e; statements from provider-reported secondary statements, not audited (annex K); price 2026-10-30. All amounts INR crore unless stated; fiscal year ends 31 March; A = reported, E = FMB forecast.

J. Monte Carlo: histogram, CDF, tornado, fan

SUPPLEMENTARY / EXPERIMENTAL: a sensitivity of the DCF to correlated economic drivers. It is not a forecast and not a second fair value.

Not drawn for this issuer. Engine statement: no Monte Carlo was published

A distribution is never invented where the engine withheld one. An issuer valued by sum-of-the-parts, a residual-income model or without an FCFF DCF has nothing to simulate.

K. Source ledger and accounting checks

Where each statement came from, what was compared with it, and every identity the model had to satisfy. Source URLs are clickable.

Limits recorded with the snapshot

- Valuation status VALID: Non-Banking Financial Company (NBFC) valued via RESIDUAL_INCOME_PB. 54/54 accounting invariants passed; reasonableness verdict ECONOMICALLY_SOUND.
- Confidence LOW: Confidence capped at LOW due to 1 gate violation(s): VALUE_PRICE_DIVERGENCE: fair value 364.92 is -61% from price 939.1 (limit +/-60%).
- Withheld / not measured: Historical EPS (share basis) -- the statement share count (61.8 Cr) is 10.06x away from the valuation's 622 Cr, so FY24, FY25, FY26 EPS is withheld rather than shown on a basis the per-share fair value does not use. Confirm the dated split / bonus from the exchange record, then restate onto one basis.
- Withheld / not measured: DCF cross-check -- Not eligible by methodology: FMB_MASTER_METHODOLOGY/MODEL_SELECTION.yaml routes this archetype (NBFC) to RESIDUAL_INCOME_PB and prohibits the consolidated FCFF DCF (blocked: FCFF_DCF_3STAGE, FCFF_DCF_2STAGE, EXIT_MULTIPLE_DCF). It is not forced to populate a sheet, and no DCF stance is published.
- Withheld / not measured: Segment analysis -- no Ind AS 108 segment disclosure was read for this issuer and the provider published no split
- Withheld / not measured: Line-by-line statutory statements -- no audited statutory XBRL filing was served for this issuer; the statements are not laid out line by line
