PROFESSIONAL SUMMARY

Final-year BBA student with investments internship experience and independent corporate valuation research. Developed financial modelling workflows and reviewed over 200 company-level valuation outputs using ASTRA. Interested in investment banking, corporate finance, industry analysis and financial advisory. Passed CFA Program Level I; registered for Level II (May 2027).

EDUCATION

Jai Hind College, Mumbai Expected April 2027
Bachelor of Business Administration (Industry Integrated with Tata Consultancy Services)
Semester GPAs (out of 10): S1 10.00 | S2 10.00 | S3 9.33 | S4 9.73 • Class XII: 91% • ICSE Class X: 97.2%

PROFESSIONAL QUALIFICATIONS

- **CFA Program:** Passed Level I of the CFA Program (2026); registered for the Level II exam (May 2027).
- **NISM:** Series XV - Research Analyst (passed).
- **NISM:** Series VIII - Equity Derivatives (passed).
- **NISM:** Series IX - Merchant Banking (passed).

EXPERIENCE

Investments Intern | Ascendas Firstspace Development Management Pvt. Ltd., Mumbai Aug-Sep 2026

- Compared industrial and logistics rents, Grade-A supply and developer activity across Mumbai, Pune and NCR to support real estate investment research.
- Reconciled property datasets and classified Grade-A/Grade-B assets for consistent market comparisons.
- Reviewed Japan-India investment structures and GIFT City Category II AIF rules using regulatory and company documents.

RESEARCH & PROJECTS

ASTRA | NSE/BSE Financial & Market Research Platform 2026-Present

- **Company & sector analysis:** Developed statement-processing, filing checks and sector comparison workflows for listed companies across the NSE/BSE universe.
- **Valuation & modelling:** Built three-statement forecasts, FCFF DCF, residual-income, SOTP, comparable-company and sensitivity workflows; 266 company-level valuation outputs recorded in a documented run.
- **Research preparation:** Built source-traceable Excel/PDF outputs and reconciled data inputs to support consistent financial analysis.
- **Market & risk context:** Developed equity-screening, technical-indicator, portfolio-risk and derivatives analytics as part of the broader ASTRA research platform.

Independent Valuation Study | 200+ Indian Listed Companies 2026

- Used more than 200 ASTRA-generated company-level valuation outputs as a cross-sector research base; separately prepared a 10-year Reliance Industries FCFF study with reverse DCF, SOTP, peer multiples and WACC sensitivities.

LEADERSHIP

Organising Committee, TALAASH and Jai Hind Conclave (2024-Present): Supported event planning, logistics, stakeholder coordination and outreach.

SKILLS

Corporate finance: Financial statement analysis, three-statement forecasting, discounted cash flow, WACC, SOTP, comparable-company valuation, sensitivity analysis.
Research & markets: Company and industry research, investment screening, real estate market research, risk and derivatives analytics.
Tools: Microsoft Excel, PowerPoint, Python (basic), SQL (introductory), Git/GitHub.
Languages: English and Hindi (fluent); Sindhi (conversational); French (beginner).
